

Mad Scientist Class

Grades K - 5

Thursdays, 3:30-5:00 p.m.

September 26 – November 7 (no class Oct. 31)

Fee: \$155 includes all supplies

In this five-week session, we will build a different motorized LEGO model each week and complete a variety of science experiments, as well (erupting volcanos, making slime, and more!). Each student will bring home a customized mini-figure that they've built from our Bricks4Kidz mini-figure factory.

In all Bricks4Kidz after-school enrichment classes, we Learn, we Build and we Play...with LEGO Bricks! Through an interactive STEM PowerPoint lesson and by building with our specialized technic LEGO® kits, kids will begin to identify and understand early engineering principals.
