"My daughter said everyone is so friendly and helpful. Thank you so much for a wonderful experience for her."

"The staff were friendly and welcoming, and my kids had a lot of fun!"

## DRIVER EDUCATION

### (IN-PERSON ONLY – MPH CAMPUS)

Driver Education begins July 1 and runs 8 weeks. Students must be 16 years old by July 1 and possess a valid driving permit. Students attend theory and drive classes twice a week, 1.5 hours each class/drive (six hours per week), for 8 weeks to complete the required 24 hours of in-class and in-car requirements regulated and approved through the NYS Department of Motor Vehicles. Theory classes and behind-the-wheel instruction taught by certified driver education instructors.

Upon completion of the course, students will receive an MV-285 Student Certificate of Completion from New York State. This certificate includes the NY pre-licensing 5-hour course requirements, an insurance reduction certificate, and allows 17-year-old drivers to upgrade to a senior license. Our goal is to teach our students to be the most responsible, safe drivers possible.

Please go to our online registration site to view the class and drive times offered. Space is limited.

**Course Fee:** \$625

### ENTERING GRADES 11 and 12

**Dates/Times:** July 8-12  
9:00 a.m.-12:00 p.m.

**Fee:** \$350/week

The essay portion of the college application can be a source of anxiety, but it is really an opportunity to shine! MPH English teacher and NYTimes published essayist, Amy Doyle, can help demystify the process in this workshop that offers practical tips and individualized coaching. On day one, the full group will meet to review the essay topics offered on the Common Application, as well as examine sample essays of successful applicants to discern what works. On days 2-4, students will have individual conference time to brainstorm a story that college admissions officers have never read, creating an “image outline” for an essay that will bring to life their intelligence, humor, and tenderness. On day 5, students will tune up their drafts with direct instruction on how to start paragraphs, how to develop and connect ideas, how to create an appropriate and resonant tone, and how to brighten their writing with strong verbs and vivid details. Limit 8 students each week.
